Item 2.02. Results of Operations and Financial Condition.

On October 27, 2022, Brunswick Corporation ("Brunswick") announced its financial results for the third quarter 2022. The news release Brunswick issued announcing its third quarter 2022 earnings is incorporated herein by reference and is included as Exhibit 99.1 to this Current Report on Form 8-K.

In the news release, Brunswick uses non-GAAP financial measures. A "non-GAAP financial measure" is a numerical measure of a registrant's historical or future financial performance, financial position, or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the statements of operations, balance sheets, or statements of cash flows of the issuer; or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented. Operating and statistical measures and certain ratios and other statistical measures are not non-GAAP financial measures. GAAP refers to generally accepted accounting principles in the United States.

Brunswick has used certain of the financial measures that are included in the news release for several years, both in presenting its results to shareholders and the investment community and in its internal evaluation and management of its businesses. Brunswick's management believes that these measures (including those that are non-GAAP financial measures) and the information they provide are useful to investors because they permit investors to view Brunswick's performance using the same tools that Brunswick uses and to better evaluate Brunswick's ongoing business performance.

The measure diluted earnings per common share (EPS), as adjusted, is believed to be useful to investors because it represents a measure of Brunswick's earnings, without the impact of certain charges that do not reflect the Company's ongoing business performance. Brunswick defines this measure as diluted earnings (loss) per common share from continuing operations, excluding the earnings per share impact of restructuring, exit, and impairment charges; special tax items; acquisition, integration, and IT-related costs; purchase accounting amortization; Sea Ray Sport Yacht and Yacht operations; gain on sales of assets; loss on early extinguishment of debt; reclassification of held-for-sale items; or other applicable charges. Brunswick's management also believes that the measure adjusted operating earnings is useful to investors because it provides a necessary and important perspective on Brunswick's operating performance and improves comparability of performance against prior periods. Brunswick defines adjusted operating earnings as operating earnings (loss), excluding the earnings impact of restructuring, exit, and impairment charges; acquisition, integration, and IT-related costs; purchase accounting amortization; Sea Ray Sport Yacht and Yacht operations; gain on sale of assets; loss on early extinguishment of debt; reclassification of held-for-sale items; or other applicable charges. Brunswick's management believes that the non-GAAP financial measure free cash flow is useful to investors because it is an indication of cash flow that may be available to fund investments in future growth initiatives. Brunswick defines free cash flow as cash flow from operating and investing activities (excluding cash provided by or used for acquisitions, investments, purchases or sales/maturities of marketable securities, and other investing activities) and the effect of exchange rate changes on cash and cash equivalents. Brunswick does not provide forward-looking guidance for certain financial measures on a GAAP basis because it i

To reflect the impact of changes in currency exchange rates on net sales, Brunswick may use constant currency reporting. To present this information, net sales transacted in currencies other than U.S. dollars are translated to U.S. dollars using prior year exchange rates for the comparative period, using the average exchange rates in effect during that period. The percentage change in net sales expressed on a constant currency basis may better reflect changes in the underlying business trends, excluding the impact of translation arising from foreign currency exchange rate fluctuations.

The information in this report and the exhibit attached hereto shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that Section, nor shall it be deemed incorporated by reference into any filing under the Securities Act of 1933, as amended, except as expressly set forth by specific reference in such filing.

Brunswick Reports Third Quarter Results

Strong Operating Performance Drives Record Third Quarter

Third Quarter GAAP Diluted EPS of \$2.26 and As Adjusted Diluted EPS of \$2.67

2022 Guidance: Adjusted Diluted EPS of Approximately \$10.00

METTAWA, III., October 27, 2022 -- Brunswick Corporation (NYSE: BC) today reported results for the third quarter of 2022:

Third Quarter 2022 Highlights:

	Q3 2022											
\$ in millions (except per share data)	 GAAP	Change vs Q3'21		As Adjusted	Change vs Q3'21							
Net Sales	\$ 1,698.2	19.0 %	\$	1,698.2	19.0 %							
Operating Earnings	\$ 237.7	13.7 %	\$	278.8	26.1 %							
Operating Margin	14.0 %	(60) bps		16.4 %	90 bps							
Diluted EPS from Continuing Operations	\$ 2.26	22.2 %	\$	2.67	29.0 %							
bps = basis points												

"We executed an exceptional third quarter as our new products, strategic investments, continued operational efficiency, and prudent cost control in a challenging macro-economic environment, together with a resilient marine market, resulted in record sales, operating margins, and earnings for any third quarter in our history," said Brunswick Chief Executive Officer David Foulkes. "We

delivered the quarter despite additional challenges, with Hurricane Ian significantly impacting our many Florida facilities and operations during the end of the quarter, certain specific supply chain shortages at Mercury and Navico Group that could not be fully resolved by the end of the quarter, and unfavorable changes in foreign currency exchange rates negatively impacting sales and earnings more than anticipated. On the positive side, aside from one distribution facility and approximately ten Freedom Boat Club locations, our Florida facilities are operational again, demand for our products remains strong, and boat field inventory levels are getting healthier as pipeline inventory remains nearly 40 percent lower at the end of the quarter versus the same time in 2019. Lastly, our U.S. Engine Parts and Accessories business had solid sales and earnings growth in the quarter.

Our propulsion business continues to deliver exceptional results, with sequentially higher operating earnings and operating margin enabled by operating efficiencies, market share gains, and higher production enabled by capacity expansion. During the quarter, Mercury Marine gained 100 basis points of outboard propulsion retail market share in the U.S. and continues to expand outboard propulsion share in many global markets as recently seen at the Cannes Boat Show where Mercury had a record 65 percent outboard share on the water. Mercury was notably impacted by a couple of discrete supply chain issues in the quarter, one of which led to nearly 2,500 mid-range outboard engines awaiting one component for completion at the close of the period, which we expect to be mostly remediated in the fourth quarter. Despite these challenges, our propulsion business delivered accretive operating margins as operating investments and cost controls offset supply chain challenges. Additionally, the previously mentioned new high horsepower outboard engine capacity in the Fond du Lac, Wisconsin facility remains on budget and on track to come online in the fourth quarter of this year.

Our parts and accessories businesses delivered strong sales growth, led by benefits from acquisitions completed in 2021, solid Engine P&A sales, and strong OEM sales from Navico Group. P&A segment operating earnings were down slightly versus prior year, primarily related to unfavorable changes in foreign currency exchange rates and continued slowness in retailer and distributor restocking patterns despite solid consumer sell-through. The distribution business in Florida was disrupted by Hurricane Ian, as transportation and certain warehouse locations were not available during the last week of the quarter. Lastly, the recently announced Navico Group operating

model changes are mainly complete and are anticipated to begin yielding planned synergies in the fourth quarter.

Our boat business posted robust top-line and earnings growth, with double-digit operating margins for the second consecutive quarter. We closed our Florida boat manufacturing facilities for most of the last week of the third quarter due to Hurricane Ian, with minimal damage to the facilities allowing for manufacturing and shipping operations to resume the following week. Freedom Boat Club had record same store membership sales increases in the quarter, but its Southwest Florida operations were significantly impacted by Hurricane Ian, with more than 100 boats damaged and a small number of locations unlikely to re-open until 2023. However, Freedom continues on its growth trajectory in the U.S. and Europe, and now has more than 360 locations, nearly 54,000 membership agreements covering 84,000 members network-wide, and a fleet size above 5,000 boats, all while generating exceptionally strong synergy sales across our marine portfolio," Foulkes concluded.

2022 Third Quarter Results

For the third quarter of 2022, Brunswick reported consolidated net sales of \$1,698.2 million, up from \$1,427.2 million in the third quarter of 2021. Diluted EPS for the quarter was \$2.26 on a GAAP basis and \$2.67 on an as-adjusted basis. All segments delivered sales growth resulting from solid demand, new product performance, and pricing implemented since the third quarter of 2021, partially offset by unfavorable changes in foreign currency exchange rates, the impact from Hurricane Ian and supply chain challenges. Strong operating earnings growth was also enabled by these factors, together with benefits from cost containment measures, tempered slightly by continued elevated material and freight inflationary pressures and spending on growth initiatives including capacity expansion, ACES, and new product development. In addition, versus the third quarter of 2021:

Propulsion segment reported a 14 percent increase in sales due to higher sales volume resulting from strong global demand, capacity increases, and market share gains. Robust operating earnings growth was enabled by increased sales and lower operating expenses, slightly offset by investments in capacity and product development.

Parts and Accessories segment reported a 19 percent increase in sales driven by acquisitions completed in 2021, with growth across all geographic regions excluding currency impacts. Segment

operating earnings were down slightly as the earnings impact from sales increases was offset by outsized headwinds related to unfavorable currency exchange rates and continued material and freight inflation.

Boat segment reported a 27 percent increase in sales as higher sales volumes to dealers throughout the quarter more than offset the production and shipment impact from Hurricane Ian. Freedom Boat Club, which is part of Business Acceleration, had another strong quarter contributing approximately 7 percent of sales to the segment. Growth in segment operating earnings and operating margin was enabled by increased sales volumes, favorable product mix, and sustained operational efficiency gains, partially offset by closures related to Hurricane Ian and ongoing supply chain disruptions.

Review of Cash Flow and Balance Sheet

Cash and marketable securities totaled \$503.6 million at the end of the third quarter, up \$136.1 million from 2021 year-end levels.

Net cash provided by operating activities during the first nine months of the year of \$313.8 million includes net earnings net of non-cash items and the seasonal impact of working capital build.

Investing and financing activities resulted in net cash usage of \$187.8 million during the first nine months of 2022 including the issuance of \$750.0 million of 10-year and 30-year notes in the first quarter for general corporate purposes, net of \$360.0 million of share repurchases, \$299.3 million of capital expenditures, \$95.7 million of cash paid for acquisitions of businesses, net of cash acquired, \$82.4 million of dividend payments, and \$58.4 million of long-term debt repayments.

2022 Outlook

"2022 is likely to be a record year for Brunswick. We continue to deliver historically strong financial results for our shareholders despite a turbulent macro-economic climate, and we are making smart cost decisions without sacrificing investments needed to drive our strategic plan", said Foulkes. "During the next several quarters, we will showcase a barrage of exciting new products coming to market, and we hope you will join us at Lake X on November 16 to experience first-hand our newest products and technologies, and our enterprise synergies in action.

Despite external headwinds including increasingly unfavorable foreign currency exchange rates, cost inflation, remaining supply chain disruptions, and the uncertain medium-term impacts from Hurricane Ian, we still believe that we will deliver a record 2022, resulting in the following updated guidance for full-year 2022. We anticipate approximately:

- 1. Net sales of \$6.9 billion;
- 2. Adjusted diluted EPS of \$10.00; and
- Fourth quarter 2022 adjusted diluted EPS growth of more than 30 percent from Q4 2021.

Finally, although we've talked about the impact Hurricane Ian had on our business operations and results, our almost 4,000 employees located in Florida endured the most significant hardship resulting from this storm. I want to offer heartfelt appreciation and thanks to everyone at Brunswick who has been working tirelessly to support their colleagues and our business partners during this very difficult time," Foulkes concluded.

Use of Non-GAAP Financial Information

A reconciliation of GAAP to non-GAAP financial measures used in this release is provided in the reconciliation sections of the consolidated financial statements accompanying this release.

In order to better align Brunswick's reported results with the internal metrics used by Brunswick's management to evaluate business performance as well as to provide better comparisons to prior periods and peer data, non-GAAP measures used in this release exclude the impact of purchase accounting amortization related to acquisitions, among other adjustments.

Brunswick does not provide forward-looking guidance for certain financial measures on a GAAP basis because it is unable to predict certain items contained in the GAAP measures without unreasonable efforts. These items may include restructuring, exit and impairment costs, special tax items, acquisition-related costs, and certain other unusual adjustments.

Conference Call Scheduled

Brunswick will hold a conference call today at 10 a.m. CDT, hosted by David M. Foulkes, chief executive officer, Ryan M. Gwillim, executive vice president and chief financial officer, and Neha Clark, senior vice president enterprise finance. The call will be broadcast over the Internet at www.brunswick.com/investors. To listen to the call, go to the website at least 15 minutes before the call to register, download, and install any needed audio software.

See Brunswick's website for slides used to supplement conference call remarks at www.brunswick.com/investors.

Security analysts and investors wishing to participate via telephone should call 877-900-9524 (no password needed). Callers outside of North America should call 412-902-0029 (no password needed) to be connected. These numbers can be accessed 15 minutes before the call begins, as well as during the call. A replay of the conference call will be available through 1 p.m. CDT on Thursday November 3, 2022, by calling 877-660-6853 or 201-612-7415 (Access ID: 13733469). The replay will also be available at www.brunswick.com/investors.

Forward-Looking Statements

Certain statements in this news release are forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on current expectations, estimates, and projections about Brunswick's business and by their nature address matters that are, to different degrees, uncertain. Words such as "may," "could," "should," "expect," "anticipate," "project," "position," "intend," "target," "plan," "seek," "estimate," "believe," "predict," "outlook," and similar expressions are intended to identify forward-looking statements. Forward-looking statements are not guarantees of future performance and involve certain risks and uncertainties that may cause actual results to differ materially from expectations as of the date of this news release. These risks include, but are not limited to: the effect of adverse general economic conditions, including the amount of disposable income consumers have available for discretionary spending; fiscal and monetary policy concerns; adverse capital market conditions; changes in currency exchange rates; higher energy and fuel costs; competitive pricing pressures; interest-rate

risk related to our debt; the coronavirus (COVID-19) pandemic and the emergence of variant strains; actual or anticipated increases in costs, disruptions of supply, or defects in raw materials, parts, or components we purchase from third parties, including as a result of pressures due to the pandemic; supplier manufacturing constraints, increased demand for shipping carriers, and transportation disruptions; managing our manufacturing footprint; adverse weather conditions, climate change events and other catastrophic event risks; international business risks, geopolitical tensions or conflicts, sanctions, embargoes, or other regulations; our ability to develop new and innovative products and services at a competitive price; our ability to meet demand in a rapidly changing environment; loss of key customers; absorbing fixed costs in production; risks associated with joint ventures that do not operate solely for our benefit; our ability to integrate acquisitions, including Navico, and the risk for associated disruption to our business; the risk that unexpected costs will be incurred in connection with the Navico transaction or the possibility that the expected synergies and value creation from the transaction will not be realized or will not be realized within the expected time period; our ability to successfully implement our strategic plan and growth initiatives; attracting and retaining skilled labor, implementing succession plans for key leadership, and executing organizational and leadership changes; our ability to identify, complete, and integrate targeted acquisitions; the risk that strategic divestitures will not provide business benefits; maintaining effective distribution; risks related to dealers and customers being able to access adequate financing; requirements for us to repurchase inventory; inventory reductions by dealers, retailers, or independent boat builders; risks related to the Freedom Boat Club franchise business model; outages, breaches, or other cybersecurity events regarding our technology systems, which could affect manufacturing and business operations and could result in lost or stolen information and associated remediation costs; our ability to protect our brands and intellectual property; changes to U.S. trade policy and tariffs; any impairment to the value of goodwill and other assets; product liability, warranty, and other claims risks; legal, environmental, and other regulatory compliance, including increased costs, fines, and reputational risks; changes in income tax legislation or enforcement; managing our share repurchases; and risks associated with certain divisive shareholder activist actions.

Additional risk factors are included in the Company's Annual Report on Form 10-K for 2021 and in subsequent Quarterly Reports on Form 10-Q. Forward-looking statements speak only as of the date on which they are made, and Brunswick does not undertake any obligation to update them to reflect events or circumstances after the date of this news release.

About Brunswick

Headquartered in Mettawa, Ill., Brunswick Corporation's leading consumer brands include Mercury Marine outboard engines; Mercury MerCruiser sterndrive and inboard packages; Mercury global parts and accessories including propellers and SmartCraft electronics; Navico Group, which includes industry-leading brands such as Simrad, Lowrance, C-Map, B&G, MotorGuide, Attwood, Mastervolt, RELiON, Blue Sea Systems, CZone, and Navico Group Connect system integrators; Land 'N' Sea, BLA, Payne's Marine, Kellogg Marine, and Lankhorst Taselaar marine parts distribution; Mercury and Quicksilver parts and oils; Bayliner, Boston Whaler, Crestliner, Cypress Cay, Harris, Heyday, Lowe, Lund, Princecraft, Quicksilver, Rayglass, Sea Ray, and Uttern boats; and Freedom Boat Club, Boateka, Boating Services Network and Boat Class.
